

Dear MVCDC Families,

The April 8, 2024, solar eclipse is a big event for our community. There is so much to learn! Click [HERE](#) for a great activity and information packet that supports all ages.

It is very important to keep your eyes safe during a solar eclipse. *The only time it is ok to look at the Sun without special glasses is during the few minutes of time when the Moon completely covers the Sun.* This is a short period of time called

TOTALITY. Look at the eclipse **only with special glasses** – regular sunglasses will not provide enough protection. Click [HERE](#) to learn more about the Eclipse. (all information courtesy of WBGU-PBS and Bowling Green State University)
