

# Playdoh and Names

We are going to use playdoh to roll out your name!

1. Have an adult, big brother, or sister write your name out BIG

2. Roll the playdoh out like a snake and twist, bend, and move it to fit over the letters in your name, one at a time. Some children might pinch the playdoh off and place on top of the letter which is great too!

## \*\* PARENTS \*\*

While your kiddo's are working with the playdoh describe what you see them doing.

1. "you made a long piece playdoh and then made it into an the letter O"
2. "You pinched off small pieces of playdoh and laid it on top of the letter..."
3. talk about how the letter is formed, "A's have straight lines and B's have curves. Do you see any straight or curved letters in your name"
