

Dear MVCDC Families,

Again this week, **we do not have any new reports of staff or children testing positive for COVID-19!** Thank you for all you're doing to keep your children and your family safe.

We're continuing to enroll families in our new virtual learning option. If you know someone who is reluctant to send their child to an in-person program, please tell them we still have spots! Families can enroll by calling (937) 226-5664.

All families in the virtual program will receive a **"loaner" tablet pre-loaded with educational programs and an adequate data plan** to keep their child learning at home. We are still finalizing details about getting the tablets distributed. More information will be coming soon! Families who join the virtual program also will get access to **weekly individualized educational activities, weekly virtual group meetings and monthly family engagement events.**

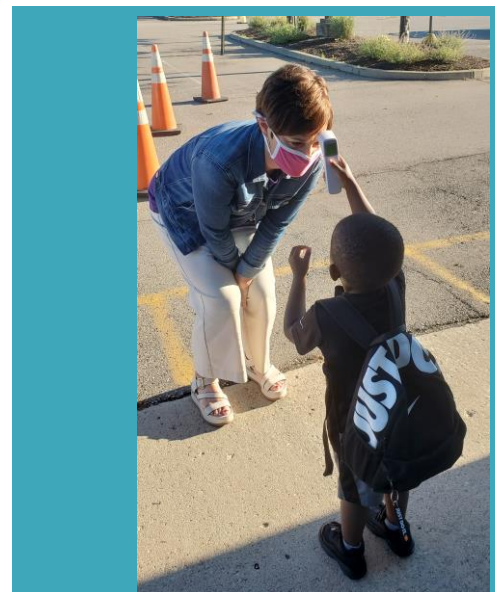

It's not too late to fill out a Census form for your family! Go to 2020census.gov — or you can call in your responses at 844-330-2020. Everyone counts! The process is easy and fast! Our community needs you to respond to ensure we get our fair share of federal assistance.

Ohio's travel advisory this week is for **Alabama, North Dakota, South Dakota and Kansas.** If you have traveled to any of these states, your child will need to quarantine at home for 14 days before returning to school.

We're going to have a great year together — in spite of COVID-19! Don't hesitate to contact me at (937) 226-5664, ext. 202.

Gratefully,

Berta

Temperature Check!
